

A Data-Driven Approach to Clinically Integrated Decision-Making

# GHX Value Analysis

**Healthcare delivery is rife with inefficiencies and unnecessary costs,** fueled by incomplete information and missing data. Thriving in today's value-based landscape urgently requires a new approach. GHX understands this urgency.

# A unique, clinically integrated approach to variation and cost reduction

Every day, thousands of hospital leaders and physicians count on us to reveal the opportunities, inform the decisions and guide the actions they need to deliver the highest quality, most efficient care.

By providing both physicians and hospital leaders with evidence-based data, and analytics they've previously lacked, GHX accelerates their ability to optimize product selections, improve patient outcomes, and foster a culture of collaboration and compliance. As leading health systems across the country can attest, our wide range of services and solutions—developped and supported by clinicians, value analysis & sourcing professionals, and device experts— provides the flexibility to meet you wherever you're at.

### Solutions for

Value Analysis and

# Strategic Sourcing

### Product Introduction Management: Manage

your review process with the gold standard for new product evaluation.

### Category Optimization:

Accelerate your strategic sourcing initiatives and multiply your savings potential.

### Physician-Level

**Analytics**: Harness physician utilization data from your EHR to drive clinical alignment and optimize supply chain decision-making.

**Consulting**: Accelerate the speed to value for your biggest strategic sourcing initiatives. "I have often said that implementing a change before GHX was like going up to home plate without a baseball bat. We were sitting ducks. GHX has given us the necessary tools to show up to the batter's box confidently, and that has helped drive cost savings, variation reduction and contract compliance."
