

GHX eInvoicing

Digitize and Consolidate 100% of Your Invoices

GHX eInvoicing helps you streamline accounts receivable processes, reduce outbound collection calls and inbound invoice inquiries, and lower days sales outstanding (DSO).

Reduce Manual Touches

Using GHX's online portal alongside your existing EDI delivery, you reduce the volume of faxed, mailed and manually emailed invoices and significantly reduce incoming calls for invoice redistribution.

- Deliver invoices electronically
- Digitize up to 100% of invoices

Increase Efficiencies

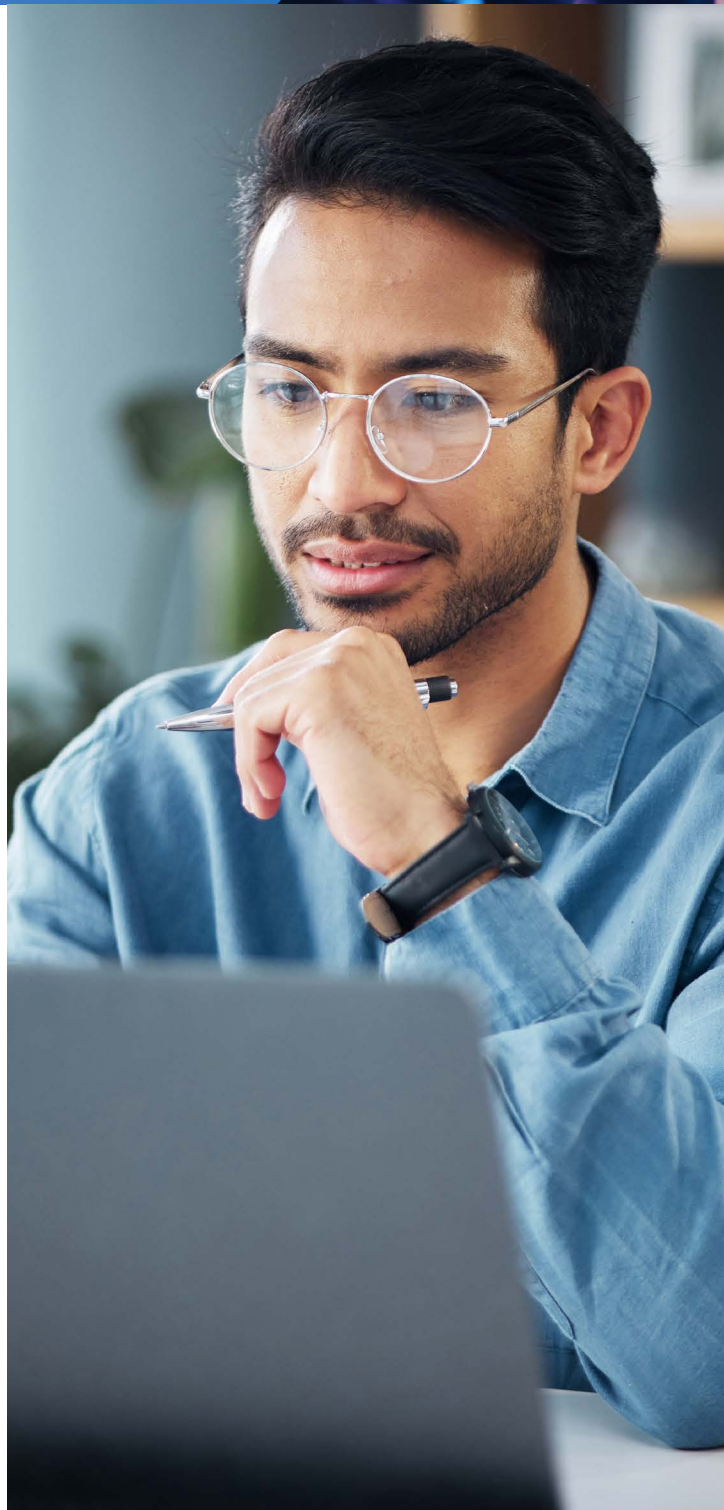

Streamlining invoice processing results in faster payments, which helps improve cash flow and reduce days sales outstanding, ultimately simplifying how you engage with your customers.

- Improve visibility into invoice delivery
- Access electronically archived invoices for increased visibility and collector efficiency
- All invoices posted to portal with proof of delivery and invoice status

Increase Cash On-Hand

- Accelerate cashflow by reducing lag time in receivables
- Quick delivery = DSO improvement opportunity

Improve Customer Satisfaction

The GHX eInvoicing portal enhances visibility and streamlines communications with customers to help build stronger trading partner relationships.

- Multiple invoice delivery methods, including the ability to send invoices via customizable automated email with PDF attachments
- Easily accessible information for customers including:
 - Current and past invoices, payment and invoice receipt/read status and proof of delivery (POD) long-term storage
 - Data for compliance and audits, and ability to provide redundancy to 810s
- Timely notifications (next day) via customizable automated email when invoices are available to be paid, alerted when something is near due and past due
- Carrier information contained in 856s (ASNs) can be rolled in as needed for quick access to POD

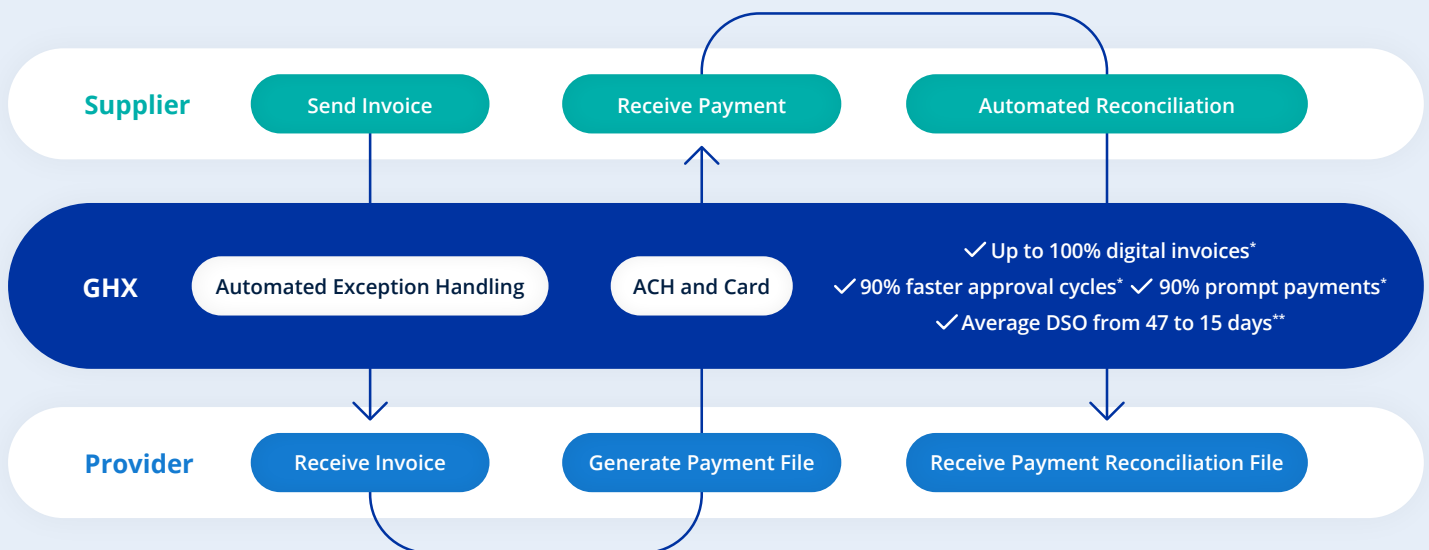

One Invoicing Solution for All Order and Invoice Types

- Meet the needs of ALL customers, including non-EDI
- Avoid disparate processes and multiple portals
- Currently used by many large suppliers

Moving from manual invoices to electronic invoices housed in a single, online portal provides you and your customers with greater visibility into the invoicing process for mutual value.

Smarter automation for you and your customers
