REGISTRATION CENTER

ONBOARD AND MANAGE YOUR TRADING PARTNERS EFFICIENTLY

The more trading partners you have, the more you can benefit from e-commerce. GHX Registration Center lets you connect with new trading partners and add new connections to existing trading partners at your own speed, making it faster and easier than ever to reduce costs and streamline processes.

Registration Center is a self-service portal that provides real-time access to view and validate trading partner relationships. Providers and suppliers are connected directly, so there's never a middleman slowing you down. With Registration Center, you can view reports and manage workflows to target new and under-utilized accounts to gain further value from the GHX Exchange.

Uniting the best of healthcare™
GHX REGISTRATION CENTER KEY BENEFITS

FUNCTIONALITY	VALUE
Trading Account Onboarding Requests	View the status of new and modified trading account requests in a simple and intuitive tabular format.
	Scan incoming requests to quickly approve, deny or modify—actions and responses are a click away.
	Send messages to trading partners to quickly resolve account-related issues and questions within the application.
Account Management	Easily register multiple new accounts for trading partners on the Exchange or for non-Exchange partners (MetaTrade and TradingNet).
	Access table views to find, edit, disable or delete accounts efficiently.
	Filter accounts per the trading channel or based on selected facilities within an organization.
Administration Tools	Add, edit, and delete bill-to and ship-to addresses associated with trading accounts.
	Edit contact details and subscribe to notifications originating from Registration Center.
	Maintain your organization's trading capabilities and main contacts to ensure that trading partners have accurate information when they research and request trading connections.
Research Tools	Search for current and new trading partners, regardless of how they are connected to the GHX Exchange.
	View the trading capabilities of potential trading partners and register new accounts directly from search results.
	Continuously build your network of connections to meet your supply chain automation goals.
Reporting	Use metrics to fine-tune your trading relationships and focus on where improvements can be made to further increase supply chain automation.
	Identify accounts with few or no recent transactions, view the number of purchase orders processed over specific periods, and monitor the utilization rate of each partner.
